

WATER WORLD

Mysteries Of The Deep	24	1,750.
Amazing evolution of life and underwater struggle for survival		
Secrets Of The Underwater World	13	1,450.
Curious habits of animals that inhabit tidal fringes, freshwater & shallow seas		
World Beneath The Sea	23	1,750.
Remarkable beauty of underwater world		
Restless Sea	34	1,950.
Beginning of the sea and chemical composition; effects of density and temperature on life under the sea		
Animals Of The Amazon River Basin	29	2,350.
Remarkable underwater photography reveal the extraordinary animal life of the river Amazon		
Marine Biology :		
Life In The Tropical Sea	12	1,250.
Produced by Jean Michel Cousteau - Interdependence of life in reefs		
Beneath The North Atlantic	28	1,950.
Fascinating journey through temperate waters of North Atlantic with rich plankton contents		
Animals Of The North Pacific	18	1,750.
Distinguished characteristics of sea lions and seals, crustaceans, jellyfish, scallops and other sea creatures		
Seal Island	27	1,750.
Life cycle against the background of prebelof islands		
World Of The Diving Spider	11	950.
Habits and life cycle of strange Diving Spider (Aragonite Aquatica)		
Can We Talk To The Animals	30	1,950.
Experiments involving dolphins to suggest that they are capable of learned communication		
Equatorial River	23	2,550.
This video focuses on the extraordinary beauty, variety and intricacies of life systems found in Amazon river basin - rain forest		

ECOLOGY

Ecosystem : Aquatic Environment	8	950.
The program examines a variety of plants and animals and the adaptations they make to their environment.		
Ecosystem : Interrelationship	7	950.
How life depends on water cycle and oxygen producing plankton in ocean		
Ecology Of The Ocean	8	950.
Ecology Of The Prairie	7	950.
Ecology Of Ponds	8	950.
Ecology Of A Swamp	8	950.
Ecology And Science: Water	30	2,150.
Water resource problems, necessity of water to human existence, water supply problems in the desert Southwest		
Environmental Issues :	15	1,450.
Our Watery World (Hydrosphere)		
Discover the importance of water for all living things and learn about the water cycle.		
Ecosystems : Nature In Balance	13	1,875.
Ecosystems exist in a delicate state of balance		
Ecosystem: Network of Life	11	1,450.
Explores the interactions that take place between living things and between organisms and the physical elements in their environment.		
Life At The Water Edge	17	1,550.
(World Wide Fund for Nature International Presentations). Importance of wetlands, ponds, lakes, rivers and marshes to our way of life		
Life On Our Planet :		
Water And It's Life System	15	1,650.
Consider the theory of water's origin. Illustrates the role of water in the environment and for humans. Study forms of life in rivers and oceans		
We Explore The Beach	10	950.
Limpets, clams, conch shells, seaweed and jelly fish

FISHERIES

Fish Are Interesting	(Eng)	9	950.	Aquarium	10	1,250.
	(Hindi)	9	1,250.	Aquarium is filled with a miscellany of the oddest underwater inhabitants.		
Fish are the most numerous. Most bodies of water have fishes in them. There are many kinds of fish.						
Fish - The Food With A Catch To It	(Eng)	12	1,550.	Rising Tide (B/W)	27	1,225.
	(Hindi)	12	1,850.	Growth of cooperatives in the Maritime Provinces, & how they brought new life and hope to poverty-stricken fishermen.		
Changing nature of fishing industry, expanding aquaculture and fish farming						
Vertebrates : Fish		14	950.	Creative Problem Solving	13	950.
This programme illustrates the characteristics shared by most fish. Underwater photography introduces viewers to a variety of water habitats and the demand they place on fish for adaptation.				Cray fish fight to solve their problems		
Fish & Fisheries (English/Hindi/Tamil)		21	2,775.	Wonder Of Dolphins	11	950.
Shot in India ... Inland fisheries				This programme considers the dolphin's unique perception of their environment and their superiority to human in both their larger brain size and their longer existence.		
Among Fish (B/W)	(Hindi)	9	875.	Dolphins : Our Friends From The Sea	13	950.
A demonstration of what fish are, how they live, breathe, swim and more remarkable, how they float up or down by manipulating their air bladder.				Characteristics that make dolphins mammals		
Acquaculture In Japan	(Eng)	20	1,750.	Otters : Clowns Of The Sea	14	950.
	(Hindi)	20	2,150.	A most appealing and lovable animal, it was once hunted almost to extinction for luxurious fur.		
The programme surveys various aquacultural techniques and also highlights the massive progress that this approach is making in helping to solve the world's diminishing food supplies.				Otters (EON)	10	950.
Pisculture In Paddy Field	(Eng)	12	1,550.	Viewers examine secretive otter behaviour, essential grooming techniques, male and female physical characteristics and courtship rituals, and family swimming and eating activities.		
Indian background	(Hindi)	12	1,950.	Forest Fisherman	16	1,450.
Prawns : Utilisation Of Waste	(Hindi)	11	1,550.	Seasonal characteristics of otters		
Indian background				Sharks And Rays : Perfect Predators	16	1,450.
Embryonic Development Of Fish		28	2,450.	Sharks are not wanton man-eaters and monsters but intelligent and sophisticated hunters with wonderful amazing senses		
A programme showing and explaining what happens in the egg of a fish from? fertilization to hatching.				Starfish	8	950.
Development Of Fish Embryo	(Eng)	10	1,250.	The background of this fascination underwater world, the programme focuses on the starfish.		
	(Hindi)	10	1,500.	Sea Gulls	11	1,150.
The Embryonic Development of Fish with simplified commentary more suitable for high school students				Characteristics and lifestyle		
Fisherman (B/W)		21	975.	Sponges And Coelenterates : Porous And Sack-Like Animals	10	950.
Which should he choose-to stay boss of his own boat and hope for better catches, or to seek a job in commercial fishing, trading independence for more certain income.				Jelly fish		
Fundamentals of Fish Spoilage (B/W)	(Eng)	15	1,550.	Echinoderms And Mollusks	15	950.
	(Hindi)	15	1,950.	Species and natural habitats		
Shows exactly what happens when fish spoil. A high powered lens and animated drawings are used to illustrate the chemical and biological changes that take place in tissues of fish when improperly handled or stored.				Osprey's Domain	15	950.
				Fish Eating Hawk		
				Giant Turtles	5	550.
				Crocodiles	5	550.
				Water Fowl : A Resource In Danger (Hindi)	16	1,450.
				Shows the immense flocks of birds, their habits and their dependence on the wetlands of the prairies.		

Penguins Of The Antarctic	14	1,250.
A unique examination of penguins.		
We Explore Ocean Life	10	950.
Fascinating colourful fish, anemones, squid jelly fish & their habitats		
Life In Lost Creek	15	1,450.
Exciting underwater world life in fast moving, slow moving and standing fresh water		
Secrets Of The Sea	15	1,350.
Various fish species		
Life Under The Sea	16	1,350.
Wide variety of unique fish species		
River To The Sea	46	2,750.
This video tells a complex story of life and death in a river. Through the seasons, and along it's course, the river is the thread that binds together species as different as Salmon lamp-rays and ospreys		
Fresh Water World	23	1,950.
Protection of fresh waterworld		
Lakes and Streams	23	1,750.
Animals of freshwater lakes and running water streams		
Nature's Camouflage	12	1,450.
Unique behaviour and appearance of fish species		
Animals Of A Living Reef	17	1,750.
Tropical waters of Great Barrier Reef with sharks, Moray eals, deadly Stone fish etc.		
Coral Reef : A Living Wonder	16	1,250.
How coral polyps survive and build largest structures on earth		
Living Seas, The	15	1,750.
Coral reefs, habitats, symbiotic relationship and the characteristics that distinguish fish from mammals		
Animals With Backbones	15	1,150.
Distinguishing characteristics of fish, reproduction, respiration and specialised body functions		
Animals Without Backbones	13	1,150.
Life functions and physical characteristics of sponges, jelly fish, sea anemones, sea urchins, starfish etc.		
Animals And Their Homes	9	950.
Homes that fish build and their protective features

'Oceanus: The Marine Environment' Series

Produced by Southern California Consortium.

*These well researched programmes
investigate the basic scientific concepts of
the marine environment & present information
in areas of plate tectonics, earthquake
predictions, impact of ocean pollutants,
climate fluctuations, cetacean intelligence
and varied resources of the sea.
It emphasizes the interaction of the living
world and the physical environment.*
